

A CHRISTMAS PRESENTATION: BEAUTY AND THE BEAST

Disney's animated adaptation of the French fairy tale "Beauty and the Beast" hit movie theaters in 1991. It is an important Disney property for several reasons. It was the first animated film to ever score a Best Picture nomination at the Academy Awards, and it was also the first Disney animated feature to be turned into a Broadway musical. In 2017, the live movie version was released to critical and popular acclaim.

SGIS brings the animated film's characters to life by putting together excerpts from the film. The entire stage was painted by Ms. Milani Santos. Ms. Menchie Abuso directed the play while Ms. Anj Lee choreographed the dances. Dr. Mildred A. Go was the overall producer of the show.

A Matinee Show with gift-giving was held last December 16, 2017 for the benefit of students from Ilugin Elementary School and the support personnel of SGIS. This was followed by the Gala Show last December 17, 2017 in the evening.

Different grade levels danced to the tune of Christmas songs for the third part of the program. Raffle prizes were given towards the end of the show. Two E-bikes were given for the grand prize. It was indeed a merry celebration of the longest season of all.
